cc: Tom Pike

Subject: rico-argentine mtg

We missed you today....(you too Tom) anyway I am going to leave the notes I took in your mail box; perhaps we can talk about them soon??. I most definitely should not be making ANY decisions related to Rico, unless it might have to do with private or federal land outside of Rico, i.e., any site assessments need done to help characterize sources upstream or downstream of what I'll term "Rico's issue areas." I left a voice mail for Tom Pike; looks like they have a large interest in Brownfields funding possibilities. TBA in the short term if FY02 money is still available, and maybe Assessment Grant dollars or more TBA\$\$ for FY03.
